

PASTORAL HEALTH & FORMATION

Financial Well-Being

The results of Vineyard USA's 2022 Compensation Survey were clear: financial health is one of the most pressing needs of Vineyard pastors and churches. This initiative, made possible by a grant from the Lilly Endowment, helps pastors/spouses, church boards, and local congregations build sustainable financial systems and habits.

The following opportunities are available in 2025.

For Lead and Support Pastors

- Financial education and one-on-one personal financial coaching
- A series of webinars on topics such as pastor taxes, retirement savings options, and wills/trusts. These webinars will occur in September, October, and November and will be hosted by several of our national relationship partners (Clergy Advantage, AG Financial, and FreeWill). Check out the [Events section](https://vineyardusa.org/pastoralhealth) at vineyardusa.org/pastoralhealth to find webinar information.

For Lead Pastors and their Church Boards

- Church finance coaching with a current or former Vineyard pastor. Topics focus on generosity/stewardship, pastoral compensation

For Congregations

- A limited number of discounted subscriptions for FreedUp are available through year-end. FreedUp offers culturally current resources to help guide and equip believers to manage money in healthier ways, through Biblical wisdom
